

PC Joint Reporting Form v.3.1

Country	Liberia	Year	2019
----------------	----------------	-------------	-------------

National authorities are requested to complete the **Joint Reporting Form (JRF)** for submission to the World Health Organization any time **before 15 August** of the current year for reporting data on PC interventions implemented during the previous year.

Number of people received treatment (at least once) for the diseases

	PreSAC	SAC	Adults	Total
Lymphatic filariasis	Not eligible	862,934	1,633,410	2,496,344
Onchocerciasis	Not eligible	920,655	1,742,670	2,663,325
Soil-transmitted helminthiases		885,647	1,633,411	2,519,058
Schistosomiasis	Not targeted	539,432		539,432

Coverage of PC interventions for the diseases (%)

	Geographical	National
Lymphatic filariasis	100.00	80.21
Onchocerciasis	100.00	80.13
Soil-transmitted helminthiases	100.00	57.99
Schistosomiasis	57.14	37.83

Number of people treated and programme coverage (%) by PC interventions

	PreSAC	SAC	Adults	Total	Coverage (%)
MDA 1 (IVM+ALB)	Not eligible	862,934	1,633,410	2,496,344	85.16
MDA 2 (DEC+ALB)					
MDA 3 (IVM)	Not eligible	57,722	109,259	166,981	85.78
T 1 (PZQ+ALB/MBD)	Not targeted	22,714	Not targeted	22,714	75.15
T 2 (PZQ)	Not targeted	516,718		516,718	30.56
T 3 (ALB/MBD) - round 1			Not targeted		
T 3 (ALB/MBD) - round 2			Not targeted		

Inventory of PC medicines in the country

	IVM	DEC	ALB (LF)	ALB (STH)	MBD	PZQ
Available	4,989,687		2,226,495			1,312,858
Distributed	4,617,698		2,016,924			1,121,998
Wasted	14,155		7,900			6,544
Received						
Remaining	357,834		201,671			184,316

Please indicate the medicine has been used to treat PreSAC for STH and delivery channels
